

Renewed Meters & Equipment

A Full Stock of Meters and Equipment When and Where You Need Them

With decades of experience, our team has the expertise to progressively renew meters, network equipment and infrastructure components across major manufacturing brands such as Aclara, Hunt Technologies, Landis+Gyr, Itron and more. From bridging a gap to new Smart Grid Technology to general system maintenance, we are continually expanding our inventory to align with the latest technology supporting the delivery and metering of electricity.

We stock and sell a growing supply of Renewed Equipment to support Utilities' needs. With a revolving inventory of 100,000+ units, Allegiant is well positioned to provide competitive pricing on industry trusted Meters and Smart Grid platforms. We also provide a 12 month warranty from shipment date on all refurbished meters.

With our industry leading turnaround times you have product when you need it.
