

Let's Find the Right Metering Solution for You

Allegiant provides Certified Renewed Meters that deliver the performance, accuracy, and reliability public power utilities expect—at a fraction of the cost of new equipment. Each meter is professionally restored, rigorously tested, and backed by our standard 2-year warranty. Ideal for field deployment, meter training programs, or as backup stock, our renewed inventory helps utilities manage budgets and lead times without compromising quality.

Allegiant's nationwide inventory, flexible ordering, and fast delivery make it easier to deploy reliable metering solutions—on your timeline and within budget.

CERTIFIED RENEWED METERS

Tested. Trusted. Ready to Deploy.

Allegiant
UTILITY SERVICES

What Makes Our Certified Renewed Meters Different?

- ✔ **Certified Performance:** Calibrated using trusted industry equipment like Radian WECO test boards and software. Every unit undergoes a multi-point inspection process.
- ✔ **Trusted Inventory:** Over 100,000 utility-grade meters in stock, including brands like Landis+Gyr, Aclara, and Itron.
- ✔ **Cost-Effective Solutions:** Get equipment faster and at lower cost—especially for maintaining legacy systems or bridging technology transitions.
- ✔ **Fast Availability:** Nationwide warehouse network with standard lead times of 2–4 weeks. Expedited services available.
- ✔ **Warranty Included:** Every meter comes backed by Allegiant’s 2-year standard warranty.

Ready for Today's Utility Needs

- **Meter Types:** Residential & Commercial
- **Forms & Classes:** Includes CL320, CL480 2K, and 16K
- **Communication Tech:** AMI/AMR & Smart Grid Modules (RF, ERT, TWACS, Tantalus, TS1, TS2, PLX, Cannon, FlexNet, No Comm, and more)
- **Network Equipment:** RF Routers, PLC Collectors, TWACS Substation OMUs, CRUs, MTUs, IPU
- **Accessories & Components:** 3.6V Lithium Batteries, LCD Replacements, Seals, Brackets, Cabling

Meter Shop Services

Tested. Trusted. Ready to Deploy.
